Summary

Results-driven Computer Science undergraduate graduating in 2026 with practical experience in software development and AI-driven applications. Skilled at delivering scalable, high-performance solutions through collaborative problem solving. Motivated to apply innovative development skills and contribute to impactful projects in a growth-oriented technology company.

Technical Skills

Programming: Java, Python, C, C++, R, Dart

Databases: MySQL, MongoDB, PostgreSQL, Firebase Firestore, Supabase

Web Development: HTML, CSS, Tailwind, JavaScript, Express.js, TypeScript, Flask, FastAPI, Spring Boot

Frameworks/Tools: Flutter, Firebase, Postman, Git/GitHub, Figma, VS Code, Android Studio

Core CS: Data Structures & Algorithms, OOP, Operating Systems, Linux, Software Development Lifecycle (SDLC)

Cloud/AI: AWS, Machine Learning, NLP, Hugging Face, PyTorch

Professional Experience

Technical Hub Pvt Ltd

Andhra Pradesh, IN

Full Stack Mobile App Developer Intern

August 2025 – November 2025

- Collaboratively engineered **HiBi**, a comprehensive HRMS application built with **Flutter**, **Express**, and **MongoDB**, enabling centralized employee management including attendance, payroll, leave requests, and performance tracking, significantly reducing manual HR workflows and improving data accessibility for remote and hybrid teams.
- Implemented automation for routine HR tasks such as leave approvals, attendance tracking, and report generation, enhancing process efficiency and minimizing human errors while supporting real-time transparency for employees and managers through self-service portals and performance visibility dashboards.

IL Talentfarm LLP

Hyderabad, IN

Generative AI & Machine Learning Intern

May 2025 – July 2025

- Engineered **Learnora**, a Generative AI platform that delivered personalized learning paths to 500+ users by applying **NLP-based recommendation systems**, increasing content relevance by 22%.
- Deployed a scalable solution integrating **React**, **Flask**, **Firebase Auth**, **MySQL**, **PyTorch**, **Hugging Face**, which enhanced user engagement time by 30% and reduced response latency by 18%.

Projects

HiBi - HRMS Application

Aug 2025 – Nov 2025

Stack: Flutter, Express.js, MongoDB

- Co-developed a centralized HRMS application that automated routine HR tasks such as attendance tracking, payroll, and leave approvals, improving operational efficiency by approximately 35% and reducing manual errors by 25%.
- Implemented self-service portals and real-time performance tracking features that enhanced transparency and accountability, boosting employee engagement and support for remote work by over 40%, leading to improved HR workflow efficiency.

EchoAI - Real-Time RAG Chatbot

Aug 2025

Stack: Flutter, FastAPI, Gemini API, Cosine Similarity Search

- Built a functional RAG-based chatbot delivering real-time, context-aware answers from live sources with 93% response accuracy.
- Implemented **Cosine Similarity Search with Gemini API + Prompt Engineering**, advanced optimizing knowledge retrieval speed by 22% and enhancing answer relevance for end users.

Learnora - Smart Learning Buddy

Stack: React, Flask, Firebase, MySQL, PyTorch, Hugging Face, NLP

- Built a full-stack **AI-powered learning assistant** generating structured roadmaps with 100+ curated resources (YouTube tutorials, GitHub repos, and certifications), driving learner task completion by 28%.
- Implemented preference-based ML models with **PyTorch & Hugging Face**, **advanced** personalized recommendations by 20%.

May 2025 – July 2025

MediLink - Smart Telemedicine Platform

Stack: Flutter, Spring Boot, MySQL, Twilio API, JWT Auth

- Developed a secure cross-platform telemedicine app enabling **real-time doctor-patient consultations**, appointment scheduling, and digital prescriptions, improving patient accessibility by 35%.
- Integrated **Spring Boot microservices** with JWT-based authentication, automated reminders via **Twilio SMS API**, and optimized backend queries reducing response latency by 21%.

April 2025

Certifications & Leadership

AWS Certified Cloud Practitioner

Amazon Web Services

June 2025

Java - IT Specialist

Certiport

June 2024

Python - PCAP & IT Specialist

Certiport

May 2023

HTML & CSS - IT Specialist

Certiport

May 2023

Hackathons & Competitions

Participant

2022 – Present

- Delivered multiple full-stack prototypes in hackathons, achieving top 10 placements twice through strong teamwork and impactful solutions.

Education

Aditya University

Bachelor of Technology in Computer Science; CGPA: 8.03

Andhra Pradesh, IN

October 2022 – May 2026

Little Woods School, Kakinada

Higher Secondary Certificate; Percentage: 88%

Andhra Pradesh, IN

April 2008 – March 2020
